

OSKAR'S M-150 SUPER FINISH POLISHING COMPOUND

Technical Bulletin

TECHNICAL BULLETIN

OSKAR'S M-150 SUPER FINISH POLISHING COMPOUND

Stand: 18.02.2022

General:

M-150 is an extra fine, mild polishing paste intended to achieve a super finish gloss on top of the employment of **M-50** or **M-100**. It is ideal to remove lacquer imperfections. M - 150 may also be used on sensitive surfaces. It does not contain wax and silicone and therefore it is recommended for machine buffing.

Properties:

Appearance:	soft, smooth paste
Colour:	white-gray
Odour:	mild petroleum
Specific Gravity:	~ 1,3g/ml
pH-value:	~ 8,0
Grain-Size μm (aprox. range):	< 1 - 40
Grain-Size μm (average):	~ 8
Solubility:	partly in hydrocarbons

Comments:

M-150 is one component of **OSKAR'S MOULD RELEASE AND MAINTENANCE SYSTEM**. More detailed information regarding this system can be supplied upon request. This documentation describes the application of **M-150** as well as the other parts of this system.

Storage:

Shelf life of at least 24 months if stored in its original unopened containers in a dry and cool place. Avoid freezing and prolonged temperatures above 30°C (86°F).

Note: Safety data sheet available on request.

The data given above are based on current knowledge and experience. The data do not signify any warranty.
