## OSKAR'S M-500 LIQUID MOULD RELEASE WAX (TOLUENE FREE)

Stand: 18.02.2022

### General:

**M-500** is a dispersion of pure Carnauba wax in hydrocarbon solvents. It is intended to clean and maintain the mould during its use. **M-500** replaces wax losses and levels out the wax layer. It removes residues of styrene/wax (the wax-built-up) and solves surplus gel coat (overspray). **IMPORTANT: M-500 is no basic wax like M-700 or M-800.**

### Properties:

Appearance:	liquid
Colour:	yellow
Odour:	characteristic
Specific Gravity:	~ 0,79 g/ml
Flashpoint:	> 27 – 60°C

### Comments:

**M-500** is one component of **OSKAR'S MOULD RELEASE AND MAINTENANCE SYSTEM**. More detailed information regarding this system can be supplied upon request. This documentation describes the application of **M-500** as well as the other parts of this system.

### Storage:

Shelf life of at least 24 months if stored in its original unopened containers in a dry and cool place. Avoid freezing and prolonged temperatures above 30°C (86°F).

**Note:** Safety data sheet available on request.

The data given above are based on current knowledge and experience. The data do not signify any warranty.
